CHUCK

LOCKING  
CHUCK

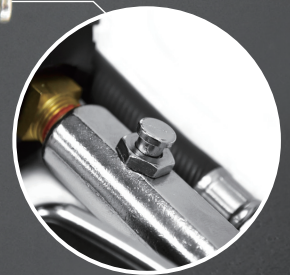

"T" STYLE  
FITTING

- ✓ Gauge is up to 2X the accuracy of the ANSI standard with larger 2.5" diameter face for finer resolution and easier to see readings
- ✓ 0-160psi range allows for high pressures from the compressor without damaging gauge display
- ✓ Bleed valve button releases pressure from the tire to your desired range or clears display after checking pressure with dual chuck

AIR BLEED &  
RESET BUTTON
