*Antimicrobial product protection inhibits the growth of microorganisms, such as bacteria, on the product surface, that can cause stains, odors and product degradation.

**This product draws less current than darker mousing surfaces, which results in extended battery life. The lab tests were done using mice from the leading manufacturers in the marketplace (Microsoft™ and Logitech™) in conjunction with batteries from the leading battery manufacturers in the US (Energizer®, Duracell® and Rayovac®). Our battery saving mousing surfaces feature the 3M micro-textured technology used to make 3M™ Precise™ Optical Mousing Surfaces.

3M™ Easy Trap Duster System

For dust, dirt and sand removal, the Flip Holder lets you easily use both sides of the cloth without having to touch it or bend over. Traps up to 8x more dirt, dust and sand than both conventional, flat fringed cotton dust mops and the professional version of a common household sweeping dust cloth brand.
