

# AIR TOOL FILTER

## MODEL AS-4028

### INSTALLATION

The aluminum housing's 1/4" male fitting screws into the air tool for ultimate protection. Connect the air line, rated up to 500 PSI, to the female fitting marked 'IN'. For filter element cleaning or replacement, unscrew the threaded section and replace with element EL-4058. Operating temperature of 35 to 200F should be observed.

### LIMITED WARRANTY

Motor Guard Corporation assumes the responsibility of providing equipment and material that is free of defects in workmanship and material. Should product fail due to a defect in workmanship or material, Motor Guard Corp's sole obligation is to repair or, at it's option, replace the product without charge, other than the transportation charges, providing that the product is returned, transportation prepaid, within one year of the date of purchase. Please contact Motor Guard Corporation for return authorization and shipping instructions. This limited warranty does not cover damage to the product through neglect, misuse or accident; nor does it cover any loss, damage or expense, either direct, indirect or consequential, arising from the non function of this product. This limited warranty replaces any other warranty information, implied or otherwise, enclosed with this product or appearing in literature referring to this product.
