

The **most** accurate automotive and commercial truck torque socket in the world.

AccuTorq® lets you see **exactly** when your lug is at the **correct torque**. No more guesswork!

Why Choose AccuTorq?

Swedish spring steel

AccuTorq is manufactured with only the best raw materials, including specially heat-treated Swedish spring steel. It is the most **accurate** torque socket in the world.

Patented strobe marks

Patented AccuTorq strobe marks **stop turning** at precisely the correct torque every time. There is no "guess work" and no recalibration.

Solid one-piece construction

AccuTorq's solid one-piece construction **eliminates** the wide **torque variances** unavoidable with socket extensions and adaptors.

Deep Well Sockets

AccuTorq's deep well sockets allow for **special applications** where regular socket depth is just not enough.

Lifetime Guarantee

By adhering to **ISO 9001** quality standards and ultrasonically inspecting each torque socket, we are able to provide a **lifetime guarantee** for each AccuTorq product.

AccuTorq is sold in sets or individually.

Lifetime guarantee

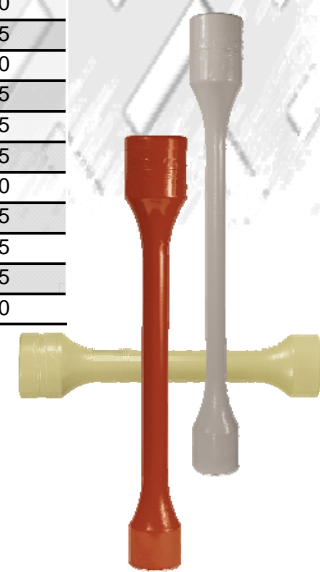

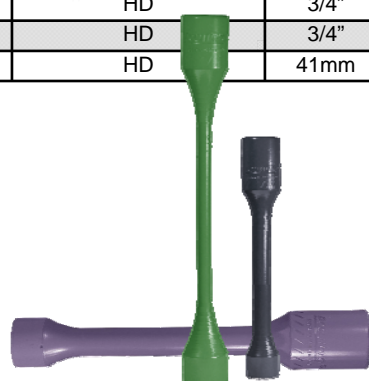

See chart below for general information on AccuTorq sizes.

For details on specific applications, see the downloadable vehicle torque chart on the Marketing Tools page of our website, or place a toll-free call to any of our customer service representatives.
