## Paint Booth & Prep Stations

### CamAir® CT Plus™ 5-Stage Filter System

Worry free air filtration for top-quality paint jobs

- First stage filter removes oil, water and dirt down to 40 microns
- Second stage coalescer removes oil vapors and dirt particles down to .01 microns
- Third stage filter media repeats dirt and oil filtering
- Fourth stage dessicant removes water vapor down to dewpoint of -40° F
- Fifth stage exits final filter media
- 30 CFM capacity

## First Step at Compressor

### Automatic Drain with Y-Strainer Valve

Electric timer automatically drains water from compressed air systems

- Mounts directly on compressor tank drain and air piping drain points
- Eliminates water build-up that can decrease shop air capacity
- Removable filter for easy cleaning

## Air Tools

### FinishLine® Clean Air Control

Clean air filtration for air tool reliability and longevity

- 5 micron filter removes particulates and moisture
- Large capacity in a compact design
- Regulator and gauge included
- 80 CFM and 120 CFM models

Order No.	Model No.	Description
130099	HAR-602	FinishLine® Air Control Unit (120CFM w/50CFM Regulator)
803643	HAR-680	FinishLine® Clean Air Control (80CFM w/50CFM Regulator)

## Booth & Prep Stations

### 3/8" x 35' Air Hose with High Flow Fittings

Durable construction for efficient air delivery

- Synthetic rubber compound tube
- High tensile strength braid
- Superior resistance to heat, weathering, ozone and abrasion
