

- Since 1967 -

The FUSE BUDDY™

- Blowing fuses? Get the Fuse Buddy, a great new product.
- Can test circuit current up to 20 Amps.
- Clever design allows for easy connection into fuse sockets.
- Four models, Fuse Buddy Tester and Fuse Buddy DMM Adapter, for both Mini & ATC fuses
- Fuse Buddy ends are molded into the shape of the fuse itself.
- During testing the fuse is removed and replaced into the Fuse Buddy. This way, the circuit being tested maintains fuse protection.
- The Fuse Buddy stays put and won't fall out of the socket, like test probes do.
- Can even be used to test for parasitic drains!

Model 302M Fuse Buddy Tester
- for mini fuse

Model 304B Fuse Buddy Tester
- for ATC fuse

302M & 304B Specifications

- Tests circuit current from 0 to 20 Amps/48 Volts
- Resolution .01A (10 milliamps), accuracy $\pm 2\%$

Model 301M Fuse Buddy DMM Adapter
- for mini fuse

Model 303B Fuse Buddy DMM Adapter
- for ATC fuse

301M & 303B Specifications

- Can measure as high as 20 Amps/48 Volts
- Multimeter Amp range determines max current range.
- Accuracy determined by DMM
