SAINT-GOBAIN

THE PAINTER'S CHOICE

Norton Premium Automotive Masking Tape is optimized for the paint masking process in collision repair applications. With superior adhesion to a variety of surfaces and clean removal after bake cycles up to 248°F/120°C, this tape is the ideal choice for sharp paint lines and protection.

A robust designed, flexible crepe paper backing makes application easy by enhancing visibility and contouring to curves without tearing and clean removal. Easy to unwind and high tack thanks to a special rubber based adhesive makes this tape the professional painter's choice for quick application.

NORTON PREMIUM AUTOMOTIVE MASKING TAPE

- Special crepe paper backing makes for easy application with enhanced visibility and easy conformability to curves and contours
- Superior adhesion and high tack on a variety of surfaces including painted metal, rubber and glass as a result of the special rubber-based adhesive
- Compatible with water-bourne and solvent based paints
- Delivers sharp paint lines and clean removal after the bake cycle and up to 3 days of outdoor exposure (UV resistant)
- Easy unwinding, water resistant and high temperature resistant up to 194°F/90°C (max 1 hour), 248°F/120°C (max 30 min)

“ Overall, I think it outperforms in almost every way over the competition. It stayed firmly attached to itself without any leakage during the paint application and removed so clean and easy. The light-weight feeling and strong adhesion made it easy to contour and conform to today's body lines.

- Automotive Paint Technician ”
