

Air Hose Assemblies

Flexzilla® is a revolutionary hose featuring a Flexible Hybrid Polymer material that redefines flexibility. This engineered polymer-blend material permits use in environments where general purpose PVC and rubber hose may become too stiff. Flexzilla hose characteristics offer zero memory allowing it to lay flat. It won't work against you during operation and coils easily after use. Flexzilla offers extreme all-weather flexibility, even in subzero conditions, and is ideal in both hot and cold environments where tight radius bends are needed.
