

17300 FLEXIBLE HOSE CLAMP TOOL

24" Flexible Cable Allows Access to Clamps Difficult to Reach with Other Tools.

Specially designed cable assembly with spring helps prevent cable breakage from over tightening. Tool is very strong and will work on even the most stubborn clamps. For use on clamps found on radiator hoses, heater hoses, and fuel lines. Simply squeeze the handles to expand and hold hose clamps in any open position. Expands hard-to-reach flat-band and Mobeax-type hose clamps safely and easily.

17300 Flexible Hose Clamp Tool. Hang Card. Shipping wt. 1 lb. 9 oz.

67000 MASTER LINE STOPPER SET

For Internal and External Lines.

The set includes four stoppers to seal lines in automotive flare type steel brake lines, power steering and transmission cooler lines. Two line clamp pliers 6-1/4" and 7-1/4" in length seal flexible brake lines, fuel and vacuum lines. Smooth rounded edges will not damage internal hose reinforcement. Eight stoppers and four caps are used for plugging vacuum and fuel lines. Stepped design can be used for both internal and external lines. Stopper sizes from 1/8" through 1/2". Caps are 5/8" and 3/4" for larger lines.

67000 Master Line Stopper Set. Molded Case. Shipping wt. 2 lbs. 1 oz.

67030 Line Stopper 1/8" (2)
