PN# M0030A
(Only included in Gallon kits)

A

B

Instructions for Alliance machines:

- 1) Insert paddle shaft into lid.
- 2) Attach the gear adaptor to the shaft and tighten at the appropriate height with an Allen Wrench.
- 3) For gallon lids only, position the tower extension onto the existing lid tower. (See Figure A)

Instructions for “Non-Dedoes” machines:

- 1) Insert the locating disk into the machine with the opening facing you.
- 2) Insert paddle shaft into lid.
- 3) Attach the fork adaptor to the shaft and tighten at the appropriate height with an Allen Wrench. (See picture B)

Instructions for RJ machines:

- 1) Insert paddle shaft into lid.
- 2) Attach the fork adaptor to the shaft and tighten at the appropriate height with an Allen Wrench.

Note: You will need an Allen Wrench for Assembly (Not Included)
