ProXL has it covered from start to finish

PREPARATION

CODE	SIZE		PRODUCT DESCRIPTION	BENEFITS
PLASTIGRIP	500ml		PLASTIGRIP is an advanced adhesion promoter for most types of plastics and can be over coated with topcoat after just 30 minutes.	<ul style="list-style-type: none"> Outstanding plastic adhesion promoter Overcoatable with any topcoat Very fast drying Clear film Supplied with 2 nozzles
PROCLEANER	500ml		PROCLEANER is an efficient and reliable antistatic cleaner for all interior and exterior plastic car parts, removing dirt, grease, oil, silicone, wax, tar, adhesive residues etc.	<ul style="list-style-type: none"> Excellent cleaning of plastic parts Antistatic formula Removes silicone, grease, wax, oil, dirt etc. Supplied with 2 nozzles
PANELWIPE	500ml		PANELWIPE is a special degreaser and panelwipe that effectively cuts through contaminants prior to painting. Developed for excellent ease of use and convenience.	<ul style="list-style-type: none"> Formulated to cut through contaminants Antistatic formula For use on metal, plastic and pre-painted surfaces

PRIMERS

CODE	SIZE		PRODUCT DESCRIPTION	BENEFITS
PROETCH	500ml		PROETCH is an etch primer that gives the ultimate adhesion direct onto many difficult substrates including alloy, stainless steel, zinc and galvanise the final surface is a super smooth non-porous finish that is suitable for any topcoat.	<ul style="list-style-type: none"> Outstanding etching properties Excellent anti-corrosive properties Fast drying Super smooth finish Supplied with 2 nozzles
SPECTRO-PRIME	400ml		<div> <div>GREY SHADE</div> <div> <div>2</div> <div>4</div> <div>6</div> </div> <div> <div>BLACK</div> <div>RED</div> <div>BLUE</div> <div>GREEN</div> <div>YELLOW</div> <div>WHITE</div> </div> </div> SPECTROPRIME is a premium coloured primer-surfacer for fast spot priming under difficult covering topcoats, offering ultimate adhesion direct onto many difficult substrates including alloy, stainless steel, zinc and galvanise.	<ul style="list-style-type: none"> Coloured spot primer for greater topcoat opacity Excellent adhesion and anti-corrosive properties Very fast drying Excellent smooth surface finish
PROWELD	500ml		PROWELD is a zinc aluminium welding primer, suitable for repairing damaged galvanising. It provides outstanding corrosion protection and is resistant to high temperatures.	<ul style="list-style-type: none"> Weld through primer with excellent adhesion Very good cathodic corrosion prevention Resistant to petrol, chemicals and weather influences Compatible with SPOT, MIG and TIG welding methods Supplied with 2 nozzles
PROWELDC	500ml		PROWELDC is a copper welding primer, fast drying, excellent conductivity. SPOT MIG or TIG weldable, high adhesion on metal surfaces.	<ul style="list-style-type: none"> Fast drying Excellent conductivity Spot, MIG or TIG weldable High adhesion on metal surfaces Supplied with 2 nozzles
PROZINC	500ml		PROZINC provides excellent adhesion and corrosion prevention. Quick drying. Formulated for refinishing of OEM plated zinc-coated car bodies	<ul style="list-style-type: none"> Fast drying Excellent corrosion protection High adhesion on zinc coated surfaces Supplied with 2 nozzles
PROALU	500ml		PROALU provides excellent adhesion and corrosion prevention. Quick drying. Formulated for refinishing of OEM plated aluminium car bodies.	<ul style="list-style-type: none"> Fast drying Excellent corrosion protection High adhesion on aluminium surfaces Supplied with 2 nozzles
1K EPOXY	500ml		PRO 1K EPOXY primer gives an excellent adhesion direct on to bare metal and has active rust preventing pigments that provide excellent corrosion resistance. It is also suitable as a welding primer and is very quick drying.	<ul style="list-style-type: none"> Fast drying Excellent corrosion protection High adhesion on zinc coated surfaces Supplied with 2 nozzles Can be used wet-on-wet
PROBUILD	500ml		<div> <div>BEIGE</div> <div>GREY</div> <div>DARK GREY</div> <div>WHITE</div> </div> PROBUILD is a primer-surfacer combining high build filling properties with quick drying times, resulting in an easily sanded non-porous surface that is suitable for any topcoat.	<ul style="list-style-type: none"> High build primer-surfacer Fast drying Excellent smooth finish Very easily sanded Supplied with 2 nozzles

CODE	SIZE	PRODUCT DESCRIPTION	BENEFITS	PRIMERS
PRO2KPRIME 	200ml and 500ml	 <p>PRO2KPRIME is a 2K primer-filler that can be applied to a wide range of substrates with outstanding adhesion and sealing properties. It is very quick drying and isocyanate free.</p>	<ul style="list-style-type: none"> Genuine 2K high build primer filler Excellent adhesion to a wide range of substrates Very quick drying 	
XPRESSBUILD 	500ml	 <p>XPRESSBUILD is an ultra high performance primer, with excellent film build along with an exceptionally quick dry to sand time. It can be used direct to many substrates including bare metal and most plastics. Excellent anti-sag qualities, and very high filling properties make this the ultimate high build primer.</p>	<ul style="list-style-type: none"> Extremely fast drying Adhesion onto most plastics and metals Highly flexible Super high build Supplied with 2 nozzles 	COLOUR

CODE	SIZE	PRODUCT DESCRIPTION	BENEFITS	COLOUR
PLASTICOLOR 	400ml	 <p>PLASTICOLOR is a durable coloured coating that adheres direct to most plastics. It is fast drying and easy to blend out for an excellent finish on all exterior and interior hard plastics.</p>	<ul style="list-style-type: none"> Excellent coverage Easy blend out Colour matched to current bumper colours Fast drying 	
PROTEXB Black PROTEXC Clear	500ml	 <p>PROTEXB/C are premium textured coatings restoring the structure of repaired plastic surfaces. Choice of two nozzles to allow the applicator to achieve the desired effect from the same aerosol.</p>	<ul style="list-style-type: none"> Spot repair for all plastics Very durable finish Easy and quick to use 2 nozzles for a fine and coarse effect (black only) Suitable for interior and exterior 	LACQUER
CF4002K 	400ml	 <p>CF4002K pre-gassed aerosol developed to be filled with 2K acrylic or PU topcoats. The product also contains an isocyanate activator providing the ultimate 2 pack performance from an aerosol.</p>	<ul style="list-style-type: none"> Simple, time saving application Excellent atomisation Provides an optimal quality with respect to gloss, curing, weather and chemical resistance Fitted with the unique ProXL vari nozzle technology 	
BODYCOAT OEM PANEL COLOUR 	400ml	 <p>Bodycoat is a fast drying, high quality acrylic coating specially formulated to match the original manufactures colours and finish. Excellent for refinishing repaired or new metal panels including boot floors, interior of front and rear panels, inner-skin panels, pillars & posts etc.</p>	<ul style="list-style-type: none"> OEM panel matched colours Excellent anti-corrosive properties Very good adhesion to abraded bare metals Fast drying and impact-resistant coating Vari nozzle technology 	FINISHING

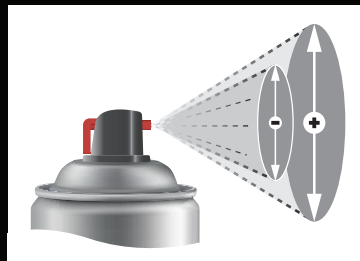

CODE	SIZE	PRODUCT DESCRIPTION	BENEFITS	FINISHING
PROCLEAR 	500ml	 <p>PROCLEAR is a high performance 1K lacquer which gives a crystal clear finish that can be applied over all water and solvent based basecoats and is ideal for smart repairs.</p>	<ul style="list-style-type: none"> Ultra gloss finish with excellent gloss retention Superior build Fast drying Supplied with 2 nozzles 	
PROSATIN PROMATT	400ml	 <p>PROSATIN and PROMATT are high performance 1K lacquers giving a crystal clear finish. They can be applied over solvent based basecoats and are ideal for smart repairs.</p>	<ul style="list-style-type: none"> Two nozzles for your convenience Fast drying Excellent flow and ease of polishing Supplied with 2 nozzles 	FINISHING
PRO2KCLEAR 	200ml and 500ml	 <p>PRO2KCLEAR is a superior high gloss crystal clear finish that has excellent gloss retention. This product is easy to activate and apply with mechanical polishing possible after 24 hours.</p>	<ul style="list-style-type: none"> Genuine 2K isocyanate lacquer UV and petrol resistant Brilliant gloss retention Very scratch resistant Gives a spray gun finish every time 	

CODE	SIZE	PRODUCT DESCRIPTION	BENEFITS	FINISHING
PROBLEND 	500ml	<p>PROBLEND is a blending clear that dissolves the edges of clear coats and solid colours resulting in the perfect finish can be used with HS and MS coatings. Ideal for smart repairs.</p>	<ul style="list-style-type: none"> Provides excellent fade out Supplied with 2 nozzles 	

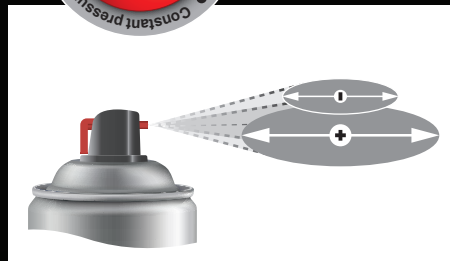

The Unique Vari-Nozzle

UNIQUE VARI NOZZLE TECHNOLOGY

Many of our aerosols are fitted with the unique Vari-nozzle that gives the ultimate fan size adjustment in both horizontal and vertical positions.

Vertical Position

Horizontal Position

The Ultra Range

CODE	SIZE	PRODUCT DESCRIPTION	BENEFITS
ULTRAGRIP  	500ml	ULTRAGRIP is technically advanced adhesion promoter that has excellent grip to virtually any substrate, has been tested on the following: Many types of plastic, any non-ferrous metal including aluminium & stainless steel, also glass, porcelain and E-coat substrates.	<ul style="list-style-type: none"> • Vari nozzle technology • Nanotechnology • Unbeatable adhesion • Clear very low film build
ULTRABUILD  	500ml	<div> <div>BLACK</div> <div>GREY</div> <div>WHITE</div> </div> ULTRABUILD is a high build primer-filler providing excellent adhesion to many difficult substrates including plastics and aluminium. Dries fast and can be over coated with water and solvent based paints.	<ul style="list-style-type: none"> • Vari nozzle technology • Ultra high build per coat • Excellent flow • Resistant to panelwipe
ULTRACLEAR  	500ml	ULTRACLEAR is the ultimate 1K lacquer giving excellent flow and build with a crystal clear, U.V. resistant finish. Compatible with waterbased base coat. Drying time of 30-60 minutes. Can be mechanically polished after 24 hours.	<ul style="list-style-type: none"> • Vari nozzle technology • Superior 'flow out' giving super gloss finish • Easy to apply • Polishable
 	500ml	ULTRABLEND is a technically advanced blending clear, that dissolves the edges of clear coats and solid colours. Can be used with HS and MS coatings. Ideal for smart repairs. 100% U.V. stable. Drying time of 15-30 minutes.	<ul style="list-style-type: none"> • Vari nozzle technology • Outstanding blend out
ULTRAETCH  	500ml	ULTRAETCH primer is an outstanding all-purpose epoxy etch primer that provides excellent adhesion and corrosion prevention on sheet steel, zinc-coated steel, aluminium and anodised aluminium. It is very fast drying with excellent flow and can be used wet-on-wet. It also offers good insulation against humidity.	<ul style="list-style-type: none"> • Excellent Adhesion • Anti - Corrosive • Wet on Wet primer
