

## AUTOMATIC TRANSMISSION AND ENGINE OIL PRESSURE TESTER WITH TWO GAGES

34550

**34550** - Check oil pressure in automatic transmissions and engines. Adapters provide coverage of most domestic and imported cars and light trucks including late models.

Supplied with two gages calibrated as follows:

Large Gage	Small Gage
0-600 PSI	0-50 PSI
0-4,000 kPa	0-3.5 BAR
0-40 BAR	

Large gage can be used for all applications and has a hang-up hook. Use small gage for more accurate reading of engine oil pressure where maximum oil pressure does not exceed 50 PSI (3.5 BAR). Includes 6 feet of oil proof hose and 10 assorted fittings. Supplied in durable vinyl pouch for store display and tool box storage. Full instructions provided.

Now includes an adapter with two grooves, Cat. No. 34573, for use on most Asian and some American and European vehicles. Thread size is 8mm-1.00 Male x 1/8" NPT Female.

**NOTE:** Do not use small gage to test automatic transmission pressure.

## AUTOMATIC TRANSMISSION AND ENGINE OIL PRESSURE TESTER

34500

**34500** - Same as Cat. No. 34550 but supplied with only one gage calibrated from 0-600 PSI, 0-4000 kPa and 0-40 BAR. Gage is equipped with hang-up hook.

SUPPLIED IN STORAGE POUCH

## AUTOMATIC TRANSMISSION AND ENGINE OIL PRESSURE TESTER WITH TWO GAGES IN MOLDED PLASTIC STORAGE CASE

34580

**34580** - Same product as Cat. No. 34550 above, but supplied in a durable, plastic molded storage case with carrying handle. Case measures 11 1/4" x 7 1/2" x 3" and has ample space for additional adapters and parts.

## POWER STEERING TESTER IN MOLDED PLASTIC STORAGE CASE

34650

**34650** - Gives fast, accurate power steering analysis. Test for defects in power steering pumps, gears and lines. Large heavy duty gage reads from 0-2,000 PSI and 0-140 BAR. Rule out power steering problems before expensive suspension or steering linkage problem is attacked. Supplied with thirteen adapters including connectors for all Fords with standard or Type I 3/8" tube fittings. Use to test power steering systems on most General Motors and Chrysler vehicles. Will also test some AMC, Jeep, Saab and Volkswagen models. Full instructions provided. Supplied in a durable, plastic molded storage case with carrying handle. Case measures 11 1/4" x 7 1/2" x 3" and has ample space for additional adapters and parts.
