

S & G TOOL AID'S OILERS GIVE POSITIVE PROTECTION TO EXPENSIVE PNEUMATIC TOOLS AND PUT AN END TO AIR LINE CONTAMINATION! PATENTED, DIRECT TO TOOL OILERS, END TOOL BURN OUT, STOP RUST AND INCREASE TORQUE

98500

THE OILER

Standard Model. High quality aircraft aluminum stem, precisely machined to 1/4" NPT. Oil reservoir is fabricated of high impact plastic. Technician always sees oil supply and oiling action. Holds three to four days supply of oil. With each use of the air tool, a fine mist of precisely metered oil enters the air stream. All internal moving parts are coated and lubricated. Use on all 3/8" and 1/2" air impact guns, air wrenches, body shop air tools and pneumatic hammers. 1/4" NPT Female inlet x 1/4" NPT Male outlet.

3/8" NPT LARGE OILER

98700 - A larger 3/8" NPT Oiler designed for use with 3/4" and 1" drive pneumatic tools. Will hold more than a week's supply of oil under average use. Same high quality construction and features as the Standard Oiler. Easily refilled through vented holes located on flange. Can be used in direct hook-up to tool or with whip hose. 3/8" NPT Female inlet x 3/8" NPT Male outlet.

1/4" NPT LARGE OILER

98800 - Constructed to the exact specifications of the 98700 Large Oiler except has 1/4" NPT. Used where technician wants longer supply of oil than is afforded by the Standard Oiler. 1/4" NPT Female inlet x 1/4" NPT Male outlet.
