

91108

### Model 91108 Filler Nipple

For grease guns. Includes ball check; 1/8" NPT(m). Works with Model 1296 and Model 500, plus filler socket 80133 (below).

### Follower Plates

Recommended when pumping lubricants that will not seek their own level.

### Model 84775

Deluxe universal follower for use with 25-50 lb. containers for 1", 1 1/4", 1 1/2" diameter pump tubes. All rubber unit ensures complete grease dispensing to the bottom of dented or plastic lined drums; wipes pail or drum clean. Metal cap holds insert firmly in place, ensuring seal and maintaining vacuum.

84775

### Model 84780

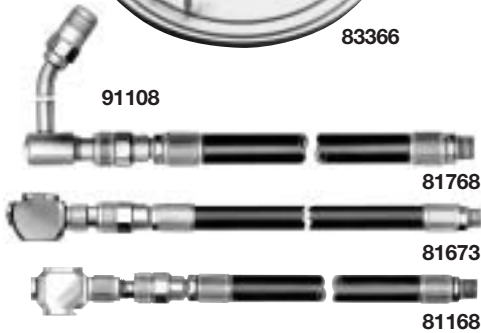

Same as 84775 except for use with 120 lb. containers for 1", 1 1/4", 2 1/8" diameter pump tubes. Used with Series 20 and 40 air operated grease pumps.

84780

### Model 83366

Deluxe pressed steel follower plate for 400 lb. drums includes a seal in the hub to prevent channeling of grease past the pump tube.
