

Norton Blaze Discs

Norton Blaze self-sharpening design is ideal for high pressure, heavy metal removal applications. The engineered, laminated backing is extremely durable for the most rugged applications.

FEATURES & BENEFITS

- Laminated backing is incredibly durable
- Seeded Gel (SG) abrasive has long life and cool cut

Norton BlueFire Discs

Heavy duty grinding discs are preferred by body shop professionals for tough jobs like paint removal, cutting down plastic filler or prepping bare metal. The unique grain composition promotes a quick initial cut and actually self-sharpens with continued use.

FEATURES & BENEFITS

- Superior zirconia alumina grain promotes quick initial cut and actually self-sharpens with continued use
- Durable phenolic resin bond system optimizes grain adhesion and extends product life

Norton Blaze Rapid Strip Discs

Excellent for removal of rust, undercoating, seam-sealers and stone guards, these discs can get into hard-to-reach areas like wheel wells and under carriage. Ideal for trunk beds and door jambs. Use to remove oxidation from tire rims and to remove rust from brake assemblies.

FEATURES & BENEFITS

- Open web construction allows for fast cutting action with very little loading and a more uniform scratch pattern
- Conformable to follow difficult profiles and for easy cleaning of uneven surfaces
- Thick, strong synthetic fibers and extra coarse grit for quick cleaning and conditioning of surfaces
