

ALC Siphon Blasters

For use with dry abrasives only
Maximum 125 psi
7 CFM@80 psi minimum / Easy setup
Lightweight and portable
Steel nozzles: 13/64", 1/4", 5/16"
Ships UPS

40017 50 Lb. Blaster Kit (F-50)

- 7 foot blast hose
- Free standing open top tank

40018 90 Lb. Portable Blaster (F-90)

- 10 foot blast hose
- Strong tubular steel cart with 6" wheels

Made in the USA

ALC Hoods

- Complete head coverage
- Rear breather vents

40019 Standard Hood

- Complete fabric hood

40024 Standard Hood with Internal Bump Cap

40025 5" x 6" Lens
Fits both hoods

40556 Deluxe Industrial Hood

- Premium fabric hood with internal bump cap

Made in the USA

ALLSOURCE Siphon Blasters

BLASTERS & EQUIPMENT

4001344 Spot Blaster

- Self recycling - dust free
- 1 lb. of abrasive included
- 5/16" steel nozzle
- Perfect for small jobs

4001544 PortaBlaster

- Use abrasives or liquids
- 10' hose length
- Unlimited capacity
- 7/15 CFM @ 80psi min.
- 13/64" & 1/4" steel nozzle included

4001244 Bottle Blaster

- Use abrasives or liquids
- One quart capacity
- 15 CFM @ 80psi
- 1/4" steel nozzle
- Light weight & portable

ALC Window Underlay

Made in the USA

40253 Window Underlay for all steel cabinets 50 pc
11699 Window Underlay for 40391 (5pk) 12" x 30"
11698 Window Underlay for 40390 (5pk) 12" x 24"

ALC Pressure Blaster Nozzle Kit

Made in the USA

Model	Size	Nozzle CFM	*Blast Area Ft. / Minute	Kit
40067	3/32"	7CFM @ 80 psi	0.5	40292
40068	1/8"	15CFM @ 80 psi	1 - 1.5	40293
40069	5/32"	25CFM @ 80 psi	2 - 2.5	40294
40070	3/16"	40CFM @ 80 psi	3 - 3.5	40295
40071	1/4"	80CFM @ 80 psi	4 - 4.5	40296
40072	5/16"	125CFM @ 80 psi	5 - 5.5	40297

- Ceramic
- Deadman & remote
- Includes 2 nozzles and gasket

*Approximate

ALC Blaster Accessories

Separate debris from any media, new or reused. / Great for reusing abrasives!
Prevents clogged nozzles from pieces of paint, rust and other particles.
For use with all blasters: siphon, pressure and cabinets.

41908 Fine Mesh Strainer

41907 Funnel Strainer

41905 Standard Strainer

Made of H.D. stamped steel. / Keeps small parts (fittings, fasteners, screws, etc.) from falling through blast cabinet grate.

41910 Small Parts Blasting Tray

- Fits ALC cabinets & many other cabinets (18" L x 10-3/16" W x 2-1/8" D)

41909 Small Parts Blasting Basket

- 5" handle makes it easy to blast small hard to hold items

Made in the USA

ALC Siphon Blaster Nozzle Kit

Made in the USA

When replacing nozzles and air jets, it is important to replace with the same size. When changing size of nozzle, the appropriate sized air jet must be replaced too.

Nozzle	Size	Nozzle CFM	Material	Kit
40050	13/64"	7 CFM @ 80 psi	Gold Steel	40053
40051	1/4"	15 CFM @ 80 psi	Silver Steel	40054
40052	5/16"	20 CFM @ 80 psi	Black Steel	40055
40056	13/64"	7 CFM @ 80 psi	Ceramic	40059
40057	1/4"	15 CFM @ 80 psi	Ceramic	40060
40058	5/16"	20 CFM @ 80 psi	Ceramic	40061

- Steel kits contain 3 nozzles, washer, air jet, & a wrench.
- Ceramic kits contain 2 nozzles, washer, air jet, & a wrench.

ALLSOURCE Standard Blaster Nozzle Kit

40366	3/16"	30CFM @ 80 psi	

- Ceramic
- Includes 3 nozzles
- Fits 41001, 41002, and 41003 Blasters

ALC Abrasives

40098 25 Lb. Aluminum Oxide is a high quality abrasive that is sharper than sand and cuts twice as fast. It leaves a smooth textured finish with no pits or burrs. It is tougher than glass bead and can be used over and over again. It is one of the most economical abrasives you can use in any reclaim system.
Also Available: 4 lb. and 50 lb.

41110 10 Lb. Plastic Grit is primarily used to strip aluminum. Great for stripping paint, light oxidation and surface rust. Recommended for use in blast cabinets because it creates very little dust. Works quickly, lasts a long time and increases visibility within the cabinet.
Also Available: 25 lb.

40126 25 Lb. Garnet is a multi-purpose abrasive. It is sharp and fast cutting with low dust. Recycles well. Great for cabinet blasting. Leaves smooth textured finish like Aluminum Oxide.

40109 25 Lb. Steel Grit is extremely fast cutting on rusty metal and hard-to-remove paint. Leaves a very smooth finish. It is also comparable in price to most other specialty abrasives. It should be used in reclaim systems or cabinets.

40105 25 Lb. Glass Bead is an abrasive that should be used in blast rooms and cabinets. It is generally used in creating a satin or matte finish.
Also Available: 4 lb. and 50 lb.

40092 25 Lb. ALC Mix #1 is used when removing paint and rust from panels. It has more cutting power and lasts longer than sand. Use ALC Mix #1 in any reclaim system or in any blast cabinet.
Also Available: 1 lb. and 4 lb.

40093 25 Lb. Coal Slag is used when paint and rust have to be removed from steel. Superior to silica because it has only .1% free silica, is faster cutting, can be re-used, is moisture free and will not pack or absorb moisture.

40112 10 Lb. Walnut Shells are recommended for use on "soft" surfaces such as aluminum, brass, wood, fiberglass and other surfaces where no pitting is desired. Leaves a smooth, dull finish.

40125 50 Lb. Corn Cob abrasive is used on "soft" applications such as wooden surfaces like baseboards & staircases, and aluminum, brass & other surfaces where no pitting is desired. Leaves a smooth, dull finish.
