- Cure composites
- Huge 6' x 8' target area
- 50' cord included
- Safe – no UV radiation
- UL listed

The S-9000-P is one of our most popular large medium wave units. It features solid state, three zone digital controls, a massive six foot by eight foot target area and the top arm is adjustable, designed to reach up and over the top of large items. The heavy duty stand is constructed of heavy steel tube. Powder coated with large heavy duty locking casters. This system is ideal for curing or drying solvent based and water based coatings, contact adhesives and for curing resins. The S-9000-P will reduce or eliminate grain raise for wood products and cut dry times by as much as 75% or more.
