WORK SMARTER FINISH FASTER

NORTON A275 ORIGINAL PERFORMANCE SHEETS, DISCS, AND ROLLS

Norton A275OP is proven sandpaper technology that consistently outperforms conventional abrasives. It cuts faster, runs cooler, resists loading better, and lasts longer to help maximize productivity.

Norton products deliver better performing results.

KEY APPLICATIONS

SANDING PRIMERS | STRIPPING OLD PAINT | DRY SANDING COMPOSITES, METALS, WOOD

KEY MATERIALS

COMPOSITES | POLYMERS | SOFT METALS

Improve Results From Start to Finish

What makes high-performance Norton A275OP deliver? A sharp, heat-treated, P-graded aluminum oxide abrasive coupled with an anti-loading agent, bonded to a tough, tear resistant latex/paper backing. The result? A high-quality, high-performance, long lasting sandpaper that produces a quick, cool cut without loading.

- Premium heat-treated grain delivers a longer life and a faster cut rate
- FEPA P-Graded grain achieves a more consistent, uniform scratch pattern
- Premium B-Weight latex reinforced paper backing improves performance with greater flexibility
- Waterbased stearate No-Fil improves load resistance and extends cut life
- Superior bond system optimizes grain adhesion and extends cut life

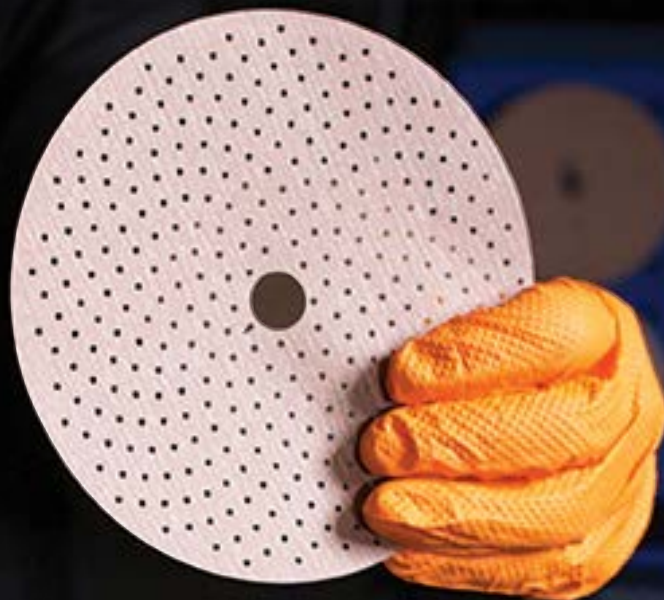

Now Breathe Easier With Multi-Air Cyclonic

Norton A275 Original Performance, known for its ability to cut faster without loading, is now available with the Multi-Air Cyclonic technology. A275OP Multi-Air Cyclonic optimizes a spiral-hole vacuum configuration that can be used with any back-up pad without aligning the hole pattern. This results in a faster change-over with better dust exaction for a cleaner more productive work environment.

Create a Cleaner Work Space
With Virtually Dust-Free Sanding

- Deliver more productivity with fewer product changes
- Reduce labor costs per job with less sanding time
- Generate more profit to the bottom line with longer product life, better surface quality, and higher sanding performance
